KIOSKCOLUMN LIV

Discover the Liv kiosk

Introducing the Kiosk Column Liv, designed to effortlessly capture the attention of your customers. Place the column as an eye-catching feature at your building's entrance or use it as a sign-in kiosk at specific locations.

This versatile column offers a flexible solution to enhance customer interaction and streamline processes. The 24" touchscreen ensures clear visual presentations and easy navigation through interactive menus. The Liv kiosk column is a versatile addition to your business inventory!

Multifunctional Solution

- Use the Liv to welcome customers into your company or efficiently manage appointments.
- Integrate the Liv with existing access control systems to easily create a comprehensice (unmanned) access control setup. Maximize efficiency by combining the kiosk column with a ticket validator or turnstile.
- Employ the Liv as an unmanned checkout or information kiosk to keep your business operating efficiently.

We're here to assist!
